

SAFE SUMMER CAMP CHECKLIST

Summer is almost here and there are a wide variety of camps available for families. But, **did you know**, summer camps are not required to be licensed by the state?

Luckily, we are happy to help parents choose quality, fun and most of all, safe child care.

Use this checklist as you visit camps to find the fit for your family.

- Does the camp complete criminal background checks for staff?
- Is there a minimum age requirement for staff and assistants?
- How are emergencies handled?
- Is the staff CPR/First-Aid certified?
- Are the lifeguards certified?
- What are the Child-to-Staff ratios?
- Are children provided water and air condition breaks?
- Are classrooms and materials being sanitized daily?

Visit and observe. Enjoy your summer!
